Energy Engineering Intern

Title –Energy Engineering Intern

Location – Edison, NJ

Reporting to – Director of Energy Engineering, Albireo Energy

Job Description

The Energy Engineering Intern will support the energy services division of Albireo Energy which includes developing energy savings projects as well as supporting the service division through our Fault Detection and Diagnostics service tool. This is a great opportunity to gain hands on experience in the energy field and could lead to a full time job upon graduation.

Typical Responsibilities –

- Utility bill analysis and data entry
- Contractor coordination including providing access to job sites
- Data entry to fault detection and diagnostics software and generating reports through on-line tools
- State/ utility incentive form completion and coordination with review agency (ies)

Key Requirements:

- Pursuing technical degree in Mechanical or Electrical Engineering
- Tech savvy with experience using Microsoft Office (Excel, Word, PowerPoint, etc.)
- Hard working, internally motivated person anxious to learn and grow
- Strong communication skills
- Valid US Driver's License

Interested candidates can send resumes to rbohinc@albireoenergy.com.
