Albiro Energy Joins Constellation's Efficiency Made Easy Program

Edison, New Jersey – October 18, 2016 – Building automation and energy services provider Albiro Energy, LLC (“Albiro Energy”) today announced that the company has been approved as a services provider for Constellation’s Efficiency Made Easy program. This program allows Albiro Energy customers to fund building automation, electrical power monitoring systems, and energy efficiency projects as part of their Constellation energy bill with no upfront capital investment.

This new designation allows Albiro Energy to provide an additional solution for commercial customers that are seeking the installation and implementation of energy efficient equipment and services and are seeking an innovative funding solution.

“This marketing relationship aligns with our commitment to improving energy efficiency in commercial buildings,” said Phil Bomrad, CEO of Albiro Energy. “Participating in Constellation’s Efficiency Made Easy program is another strong example of delivering against our ongoing growth strategy, while also offering Albiro the opportunity to collaborate with Constellation to continue providing customers with the best energy saving solutions.”

About Albiro Energy

Albiro Energy provides building automation solutions and energy services to commercial and institutional buildings nationally. Their solutions and services help building owners and managers improve efficiency and reduce operational costs while improving comfort for tenants. Through its operating divisions, AE has a history of providing exceptional solutions to mission critical facilities such as data centers, labs, military installations, and hospitals. Their service portfolio includes energy efficiency, demand response solutions, and smart building solutions including installing and optimizing building automation solutions, electrical power monitoring systems, lighting systems, and fire and life safety technologies. www.AlbiroEnergy.com

About Constellation

Constellation is a leading competitive retail supplier of power, natural gas and energy products and services for homes and businesses across the continental United States. Constellation's family of retail businesses serves approximately 2.5 million residential, public sector and business customers, including more than two-thirds of the Fortune 100. Baltimore-based Constellation is a subsidiary of Exelon Corporation, the nation's leading competitive energy provider, with 2015 revenues of approximately \$34.5 billion, and more than 32,700 megawatts of owned capacity comprising one of the nation's cleanest and lowest-cost power generation fleets.
