

Energy Management Control Corporation Joins Albireo Energy
Transactions Strengthen Albireo's New York Presence

Edison, New Jersey – April 25, 2018– Building automation and energy services provider Albireo Energy, LLC (“Albireo Energy”) today announced it has added Long Island City-based Energy Management Control Corporation (“EMCC”) to its platform. The partnership will bolster Albireo Energy’s geographic presence in the Greater New York region by having offices in Long Island City, NY and Edison, NJ. It will also expand its capabilities in systems integration. EMCC will continue to run day-to-day operations out of the Long Island City office and is now a part of the New York division of Albireo Energy.

Energy Management Control Corporation is a certified Schneider representative serving the New York Metro area. Using Andover products, along with a dedicated and skilled team, EMCC provides complete control systems integration services for facility automation systems. Founded in 1981, EMCC has installed and maintained systems in buildings across diverse markets that include universities, healthcare institutions, and commercial buildings.

“Our acquisition of EMCC compliments our overall value-added offerings of sustainable energy savings and infrastructure protection,” said Phil Rogers, CEO of Albireo Energy. “Last year we doubled our presence in the New York region and EMCC acquisition will help support our growth.”

“EMCC is a long-term successful automation controls company in the NY region. We are very excited to becoming part of the Albireo Energy family, as this will immediately bring more resources to the market and meet the demand of our current customers,” said John Piraino, President of EMCC. “Most importantly, our employees will have greater growth opportunities by becoming part of Albireo.”

About Albireo Energy

Albireo Energy provides building automation solutions and energy services to commercial and institutional buildings nationally. Their solutions and services help building owners and managers improve efficiency and reduce operational costs while improving comfort for tenants. Through its operating divisions, Albireo Energy has a history of providing exceptional solutions to mission critical facilities such as data centers, labs, military installations, and hospitals.
