

Remote Services for Senior Living Services

Welcome to the future of senior living facilities management with Albireo Energy's Remote Services. Albireo Energy's Remote Service accesses your building systems quickly and securely. We diagnose and resolve system issues without the need for an on-site technician, saving you time and money. Now's the time to take control of your facility systems with Remote Services.

Maximum Control of Your Facility

- > **Boldly Connected**
Secure, wireless access to building systems
- > **Site Unification**
Seamlessly connect to one or more locations
- > **Action Plan**
Remote problem triage and detailed course of action
- > **Coaching for Success**
Operational guidance at your fingertips
- > **Transparent Tracking**
Monthly auto-reports on tickets, response times, and costs by location

Albireo Energy's differentiator is our people and processes.

Our experienced staff draws on decades of experience across many markets.

How Does It Work?

Benefits

- Quickly diagnose and troubleshoot building system issues remotely
- Receive detailed reporting with monthly metrics on cost of service, open tickets and time to resolve
- Feel secure knowing your systems are up to date and running smoothly.
- Give yourself the confidence to focus on other aspects of your business.
